

Thank you for choosing Tulsa School of Real Estate for your educational needs. We are committed to providing you with a quality educational experience that fits your needs and prepares you for your career in real estate. You have enrolled in the Pre-license online course. Please make sure you save this email. **Please make sure you also save your username and password that you created.** Then go to the student icon symbol at the top right of the home page on the website and click to log into your account each time you come back to take the online course.

Go to **Lesson 1 Course Resources** first. Lesson 1 Course Resources has an overview of the Course and the **required** practice tests you take to pass the course and receive your certificate. The required practice tests start after Lesson 1 Resources with Required Practice Test 1.

Next, please read the online National Book, the online Oklahoma Real Estate License Code and Rules, and all online resources in Lesson 1 Course Resources. Then take the practice tests after each chapter of the online National Book in Lesson 1 Course Resources. If you purchased the Platinum Course, read the hard copy National book, the online Oklahoma Real Estate License Code and Rules, and all the online resources in Lesson 1. Then take the practice tests after each chapter of the hard copy National Book. **After all materials in Lesson 1 Course Resources have been reviewed and the Real Estate videos on important topics have been watched.** Then take the online Required Practice Tests. These required practice tests are comprehensive of all the National and State material. Try not to start the online Practice Tests until you have covered all the online materials and real estate videos on important topics in the Lesson 1 Course Resources. **If you feel confident with the material and have watched the real estate videos and would like to see where your weak areas are when taking the required practice tests, this can be another option when taking the course. Make sure you go back and study your weak areas before you take the required practice tests again.**

This course is designed for you to move at your own pace, after covering all the online resources in the Lesson 1 Course Resources. Start taking the practice tests, which are all of the National and State required practice tests. We encourage you to take these tests as many times as you need. Tulsa School of Real Estate requires an 80% or better on these required practice tests so that you will be prepared for the exam at the Pearson VUE testing center. For the best results, we strongly suggest taking the tests without using your book or online resources, as they will not be available at the testing site. It is important for you to get an idea of any area in need of further study, and the required practice tests can be an accurate indication of this only if you take them without help. Once again, Lesson 1 Course Resources will have all the online resources that you will need to pass the course. Should you have any questions about a subject, please feel free to text or call us, and we will get back to you within 24 hours. Please do not be discouraged if you do not pass the tests on the first try; just go back and review the areas of weakness and keep trying to pass the tests.

Upon passing all the required practice tests with an 80% or higher, a certificate of completion of 90 hours will be available for you to print and fill out. Please make sure your name is on your certificate before uploading it to the Oklahoma Real Estate Commission. **Please let me know if you have any questions or would like to continue to have access to the course after course completion.** We can communicate through email, chad@tulsaschoolofrealestate.com, phone/text 918-313-4540, or a Zoom call. **Text is the preferred method of communication.**

Thank you once again for choosing Tulsa School of Real Estate,

Chad Greer/Instructor
